

# OPTIMIZED SEAL INSPECTION SOLUTIONS

PK's Seal Inspection Services offers an integrated crew and multi-functional approach combining industry-leading safety and inspection services, innovative technology, and industry-recognized SMEs to execute projects safely. Our team also offers the ability to merge all services into a single point of contact, eliminating handoffs between contractors.

- SEAL CLEANING
- SEAL INSPECTIONS
- REAL-TIME INSPECTION REPORTS
- IN-SERVICE & OUT-OF-SERVICE REPAIRS / REPLACEMENT
- SAFETY & RESCUE SERVICES

## Our Mobile Inspection Technology

intelliSPEC™ is a cloud-based inspection software that provides a digital view into the field. intelliSPEC™ delivers complete accessibility of data, validation of compliance measure, elimination of bottlenecks, reduction in cycle times, and increased production through transparency.

intelliSPEC™ can operate as a stand-alone system or communicate with legacy programs...

Maintenance.

Operations.

Turnarounds.

Capital Projects.
