**Safety Services**  
est. 2008

PK Safety is a leading provider of integrated industrial safety services and strategies dedicated to keeping your workers and your facility safe. PK Safety offers intelligent technological and service-based solutions designed to provide full transparency and comprehensive knowledge with experience you can trust, delivered by people who dedicate their lives to safety

**Inspection Services**  
est. 2010

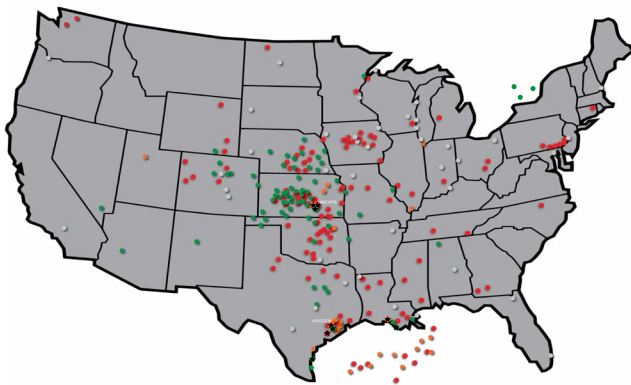

PK Technology provides uniquely efficient, API, NACE and other inspection services by utilizing IntelliSPEC™, an in-house developed intelligent solution designed to deliver complete transparency and comprehensive knowledge to assist owner clients with making better data-driven business decisions in near real-time thereby helping assure integrity and avoid PSM events.

**Industrial Services**  
est. 1997

PK Industrial is a leading soft craft services company with both shop and field capabilities. Insulation, fireproofing, scaffolding, and painting services have been safely executed in the petrochemical, industrial, energy and commercial sectors. PKI is one of the largest fireproofing applicators in the United States since 1997 with shop locations strategically located throughout the country. Through our commitment of our quality of work, safety first mindset, and relationships with our clients, PK Industrial has created a culture of excellence customers have come to expect.
