

# INSULATION

A HIGHER LEVEL OF PROTECTION

TECHNOLOGY

PK Technology is a leader in soft craft and inspection services, delivering unmatched expertise to the industrial and commercial sectors. Our highly skilled craftsmen set us apart as a trusted partner for even the most complex and demanding projects.

We understand the high stakes in Energy, Pulp & Paper, LNG, and Aerospace industries. That's why we're committed to ensuring asset integrity and operational efficiency, tailoring solutions to meet your project's unique needs with precision and care. With PK Technology, you gain a partner with expertise you can rely on.

## CRYOGENIC | COLD & HOT | HVAC

### OUR EXPERTISE:

- Open /Closed Cellular Insulation with Vapor Retardant Barriers
- Injected Polyurethane Foam
- Elastomeric Coatings with UV Protection
- Glass Fiber with All-Service Jacketing

### COMMONLY INSULATED:

PYROGEL | CRYOGEL | SUPERMAT

- Pressure Vessels  
(Exchangers, Drums, Columns, Tanks, etc.)
- Piping
- Breechings
- Turbines
- Exhaust Stacks
- Boilers
